Mõõdud on antud sentimeetrites. Paksult ja punasega on kehtiv Eesti rekord. Hallid ruudud tähistavad liigi või alamliigi puudumist vastavas maakonnas ja küsimärk tähistab kaheldavat esinemist. Kriips on lahtris, kus pole rekordit veel fikseeritud. Rekordite mõõtmise juhised on avaldatud "Käoraamat - orhidee-aasta 2013".
